

DAVE'S FLAGSHIP PRESENTATION

The Power of ZERO

0%

How to Get to the 0% Tax Bracket and
Change Your Retirement

PRESENTATION OVERVIEW

There is a huge freight train bearing down on America, and it's coming in the form of higher taxes. Yet, most Americans continue to accumulate the vast majority of their savings in tax-deferred vehicles like 401(k)s and IRAs. In this presentation, Dave Hall discusses the perils of tax-deferred investing and explains how the Power of Zero paradigm can help get individuals off the train tracks and into the zero percent tax bracket by retirement. Why is zero percent so powerful?

*“two times
zero is still
zero”*

Because if tax rates double, two times zero is still zero!
